Chapter

Kedrick the Head Trip here. Being the Head Trip is satirical, not literal. It doesn't mean not being taken seriously. It just vaguely rhymes, or at least has assonance

In the summer of 2020, I learned that I'd probably have better housing by the fall.

Condemning the Political Abuse of Psychiatry

The press doesn't report abuse inflicted upon autistic people. Instead, the populace is indoctrinated to hate and fear us as if we're all like Adam Lanza. There are varying degrees of autism. The media ignores the most severe cases. In my case, the ableism is much worse than the condition itself. Employers refuse to hire me and the laws against discrimination are unenforced.

I'm gradually rising above the abuse. I finally have a medicinal cannabis license. There's no legal justification to accuse me of "abusing" said medical necessity when it's prescribed. I tapered the pharmaceuticals myself, thus avoiding withdrawal symptoms; and psychiatry has lost a customer. Decades of psychiatric fraud and

torture exacerbated Post Traumatic Stress Disorder and that's inadvertently how I got that license.

The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something"; i.e. insurance fraud! Anyone can be misdiagnosed so drugs get pushed, the vast majority of them are never violent, people labeled "mentally ill" are more likely to be victims of violence than perpetrators; the torture inflicted upon them is encouraged by the authorities.

Many psychiatrists told me I would "never amount to anything" because they're ashamed of themselves, so they project their insecurities upon others, they ruin lives by misdiagnosing whomever they can; as expected from bullies.

The pushers are unwilling to lose even one customer. Every time they refused to taper the drugs, I was yet again traumatized by involuntary admission due to withdrawal symptoms. Post Traumatic Stress Disorder was misdiagnosed because psychiatry caused most of the trauma.

I finally was diagnosed with PTSD. I acquired my medicinal herb license in 2017, a major accomplishment. The pushers don't have any legal justification to accuse me of "abusing" said herb when it's prescribed.

Years after relegalization of medicinal cannabis in 2012, nobody removed unqualified doctors and others who think the first medical necessity somehow "causes" every problem that exists and then some.

The drug pushers were wrong, all of their claims are backwards. The first medical necessity motivates its users, improves concentration, and prevents paranoia, anxiety, and depression because it's relaxing; and saves lives.

Medicinal cannabis clears my head so I focus. Dr. Jeffrey Shelton claimed otherwise while pushing drugs to impair concentration and cause depression and anxiety.

Dr. Micheal Edward Balkunas of New Britain General Hospital caused damage that persisted since 2005.

Before 2005, nobody denied that I was a "gifted and talented" savant on the highest functioning end of the autism spectrum. In 2005, Dr. Micheal Balkunas falsified medical records. From 2005 to 2015, I was falsely accused of "paranoia, delusions, psychotic tendencies, lack of insight, and polysubstance abuse" because that's how pharmaceuticals are pushed.

Community Mental Health Affiliates convinced a Probate Judge to appoint a Conservator of Person and Estate, Attorney Katrina Camera, at the behest of Dr. John A. Nazarian. I was discharged from CMHA to Continuum of Care in 2015.

When I was harassed and stalked by Mike Inigo, the staff at my house stayed in the office to not witness him throw out my belongings, and I wasn't reimbursed. They presumed they could get an easy paycheck. The bully pulled down his pants and indecently exposed himself and got away with it. He was eventually removed from the house.

Psychiatric APRN Susanne Wargo pushes Xanax without concern about brain damage or deadly withdrawal symptoms. I had a seizure when I was misplaced the pills and the junky staff at Bristol Hospital claimed the cause of the seizure was

"undetermined", then lied under oath knowing their perjury was all it takes to persuade the Probate Judge. The junky staff say, "do as we say, not as we do". "Special education" meant being forcibly drugged and thrown in detention for being forced to sleep in class. I excelled in school until I was forcibly drugged in 5th grade at the Wheeler Clinic. I was kicked out of public school for being an easy target for bullies. I was forced to sleep through nearly every class from 5th grade until graduation. Classism and racism caused the phony "drug war" targeting indigent communities. This isn't a specifically American problem, authentic medical necessity had already been banned throughout Europe before the United States. Harry J. Anslinger fooled lawmakers who had no idea they criminalized a medicinal herb that saved their lives. By using an obscure term spelled with a J instead of an H, Anslinger made the first medical necessity seem foreign. He targeted immigrants and jazz and swing musicians by claiming they were "insane on marijuana that makes them think they're as good as white men" despite that people of all walks of life rely on the first medical necessity.

The poor are targeted, considered a threat to the wealthy.

Psychedelic therapy is incontrovertible. The "freakouts" are unlikely in a therapeutic setting. Medicinal herb paves the way for relegalizing all authentic medical necessity.

Pro-vaccine propagandists either don't know or don't care that pharmaceutical companies manufacture vaccines and they can't be "one size fits all", they're like Russian roulette, different people react differently to vaccines; and the results are terrible. Autoimmune diseases are on the rise because of vaccines.

The populace is systematically poisoned. That's how pharmaceutical companies sell their drugs to sell more drugs. Vaccines cause customers. The vaccinated vast majority gets sicker and sicker and sicker. Vaccines can cause seizures, encephalitis, and worse.

Death is listed as a "side effect" of vaccines. When babies die after vaccination, the euphemism "Sudden Infant Death Syndrome" is used as if the cause of death were unknown. The pro-vaccine propagandists say they'd "rather be autistic than dead" as if they've never heard of other possibilities besides autism and death.

The warning label on toothpaste says to call a Poison Control Center if its swallowed, yet the populace doesn't question why the same poison is in the water. They're indoctrinated and domesticated. Sodium fluoride has damaged their brains. Most pro-vaccine propagandists don't know about autism, they think they're experts on my condition just because they watch TV and movies.

Deaths from viruses already declined by 90 percent before vaccines. These deaths were declining for many decades. Better sanitation, hygiene and nutrition helped. There's also treatment for these infections. The symptoms could be reduced. This wasn't always widely understood, hence the difference between decades ago and

centuries ago. Typhoid fever declined without widespread vaccination and scarlet fever declined without any vaccine.

Anybody who already survived measles won't catch the same virus again due to lifelong immunity. Measles is a temporary infection that's rarely fatal. Surviving ailments is a rite of passage during childhood.

The symptoms of mercury poisoning are also the symptoms of autism. When vaccination increases, autism increases. Even after mercury was removed from most vaccines, they still cause autism for other reasons.

The pro-vaccine propagandists don't care that injection of mercury is inherently more harmful than ingestion thereof, such as in fish oil supplements.

Infant mortality increases along with vaccination. The US has the highest infant mortality rate because it has the most vaccines.

The media suddenly stopped talking about measles because now the fearmongering is over coronavirus. There's new mass hysteria, just like that.

<https://childhealthsafety.wordpress.com/graphs/>

I'm expected to fend for myself because I'm in the minority on the highest functioning end of the autism spectrum. I don't appreciate the media diminishing my plight.

Chapter

Music and herb saved my life. That's how I kept my cool since my youth. I remained mellow despite the abuse inflicted upon me. If not, I could've been driven down a dark path and became more like Magneto than Professor X.

My most widely disseminated song is Ingenuity, a psychedelic conscious hip hop song :

<https://youtu.be/GoLjmY48C84>

The night after I attended my first Temezcal, a Mexican sweatlodge, my song Ingenuity finally reached 1000 views within about 7 months.

I was invited by _____, a certified level 3 Reiki practitioner and a 3rd generation Oracle.

Intuition definitely exists. Not being 100 percent accurate doesn't mean not having the ability. The skeptic extremists offer rewards to prove them wrong, then boast that they never intended to deliver such an award. They're charlatans and proud of it. Blind rejection isn't any more plausible than blind acceptance. The tests are rigged! Snobs ask "how could a psychic have bad luck?" as if it were that simple. Yeah, right!

I saw the 2002 tsunami of South East Asia in a dream, but only a vague reference. I interpreted it during and after its fulfillment, not before

Astronomy and astrology are interchangeable. Nobody claimed otherwise until recently. The original science is incorrectly called "pseudoscience" and even "antiscience", an insult to everyone's ancestors.

I have an app to train for Extra Sensory Perception, and I'm on the global leaderboard. Any score of 11 or higher can be submitted. I've gotten 14 out of 25 correct. Anything more than 5 correct can't be attributed to chance alone. I usually guessed the colors on cards rather than symbols or numbers or et cetera. Out of 25 cards, there were 5 colors.

I frequently see certain numbers on clocks. 11:11, 1:11, 2:22, 3:33, 4:44, 5:55. This isn't coincidental. I see them more frequently than not. This has especially been the case since the Age of Aquarius dawned in the spring of 2017.

I had already written protest songs years ago that are about topics still important.
The protests against police brutality were mentioned in Call for Liberation.

Lyrics to Call for Liberation :

So many protest.
Everyone is oppressed.
Nobody has freedom at anyone else's expense.

I must insist that authority should cease to exist.
I'm an anarcho-primitivist.
We must resist Empire and its many clients.
They're all tyrants
My Zerzan-esque verses will burn down churches to murder (neo)conservatives for their disservice.
They deserve it.
Proudhon correctly said, Property is Theft, and influenced Bakunin.
We need more than a revolution.
Progress is a myth.
Technology inflicts pollution upon Earth as persecution, hence what Edward Abbey said was the industrial way of death.
Civilization is self-destructive and meant to oppress.
When ignoring the facts, some have resorted to a personal attack.
The accusation of hypocrisy is obviously an ad hominem (among the more common and most easily refutable and futile of any logical fallacy) to blame us for using technology while in civilization's clutches, as if blaming a cripple for using crutches.
Anarcho-primitivism is what I believe in. There can't be freedom where there is authority, hierarchy, and other crimes of the civilized.
I support nomadic forager tribes.

Authority and hierarchy have divided us, and lied to us.
We had been told that our rights were recognized and wouldn't be denied.
Empire has tried to deprive us of our skills that we needed to survive.
The low lives who hide behind a badge fabricate crimes to meet their quotas.
They patrol us and enforce their war upon us.
Empire and its apartheid has to end, and we need not let it slide ever again.
We can easily resist them, and we will win.
We outnumber and outwit the oppressors.
We can do much more than merely demonstrate against them.
They intend to arrest anyone who protests them, but we don't have to let them.
If we had all been killed, then there'd be nobody to oppress when there's none of us left.
I told them I won't tolerate the laws and hate they have caused for so many years.
I made myself clear
They didn't hear because they had lard in their ears.
Yet we are precisely what their Empire should fear.
Much like the Irish volunteers, we're undefeated.
Those who profit from apartheid have repeated their lies, but that doesn't make them true.
We must liberate the Earth, as that's what we are obligated to do.

I wrote Defy Dystopia *long* before 2020.
The lyrics to Defy Dystopia

civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills
(×2)

the populace is systematically poisoned by a pharmaceutical industry that brutally
despises liberty
as the poison pushers avoid all liability,
barely even discreetly,
quarantines are caused by corporate greed to sell vaccines
after sanitation had already decreased deaths from infectious diseases
by 90 percent before the vaccines shed the germs to spread,
hence the fear mongering is measly,
the vaccinated majority are brutally duped
given shots like they forgot surviving chickenpox,
poison pushers walk all over us until we make them run away from us thus before
us because they exploit us.
They contaminate the water and pollute the air
and hate us because we dare to care.

Newscasters who spew disaster don't inform those who view that a fashionable
discrimination,
mentalism or sanism, a variation of ableism or disabelism
is endorsed as preferable
while everybody who's stigmatized and ostracized
is considered expendable
and detestable
for being traumatized and almost universally despised
many are forcibly drugged and electroshocked to be vegetables
it's disturbing to describe
such reprehensible
atrocities enforced by
Probate Judges
who hold their grudges
while the reporters don't want to realize they stigmatize those who would probably
save their lives.
Fear sells. I'm not buying.
Measles isn't a death sentence.

Censorship of a documentary
Is barely even trying.
The fear mongering is blatant denying and lying.
Measles isn't bubonic plague.
Such feeble claims aren't even as vague rather than opposite the truth.
The populace is too afraid to comprehend proof.
Distress when the press will degrade
a minority who couldn't weaken any herd immunity,
That's inherently absurd, brutally undeterred by scrutiny.
The vaccinated majority is told lie after lie.
The herd immunity rationale doesn't apply
When pretending viruses could be spread by those who haven't caught them or that
new strains are to blame.
That's an inherently bogus claim.
Forced vaccination with bans and badges are inhumane.
Mandatory vaccination is oppressive because it's coercive, thus indefensible.
There could be internment or worse for those who don't get vaccinated on schedule.
The autists are stigmatized by lies and portrayed as expendable.
Autism doesn't cause rampages,
The savant syndrome misdiagnosed while geniuses are locked in cages.
The reprehensible sadistic staff will Drug Shock Misdiagnose
To push their drugs to those who thought they were immunized.
Disease is exacerbated.
Only a minority are unvaccinated.
The harm caused by measles is exaggerated.
The idea of a herd immunity weakened by a minority is outrageous,
Like bogus bans and badges on those who didn't catch anything and therefore, are
apparently not contagious.
Doped up staff are sociopaths who laugh as they steal opiates from the
detoxification wards they're working at, forcing prisoners into rehabilitation.
This invasion is futile, it's desperation when the pushers resort to slander phrenia.
Therapy can't be forced.
Pushers label anybody
'mentally ill' without evidence
then pretend they have grounds to torture
while claiming to 'medicate'
those whom they denigrate to decimate
it's never therapeutic when against their will
For freedom from psychiatry,
force and fraud,
I easily see through a façade

civilized society is entirely for shills
and psychiatry kills

by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills

My mood improved by summer, not spring like usual. The winter blues was extra rough. By mid July, I was feeling much better. In fact, there had still been interference.

Months later while blockages remained, I figured maybe a few months meant a season and a half or so, since intuition isn't necessarily 100 percent accurate. As mentioned earlier, towards the end of July, I finally heard good news; I'd probably have better housing by the fall.

New Years' Eve

I went the whole day without eating just to prove I can fast, since it might be necessary in some cases.

I was assaulted at Zen Bar in Plainville. I had nowhere else to go. I almost had a ride to a better event. The GPS got us lost. I wasn't expecting much from Zen Bar. Three bouncers told me to leave, and one of them even pushed me as I was already on my way out.

Chapter
January 2020
Music is Life and I'm Condemning Psychiatry

Thursday January 16 2020

Posted this online :

#Psychiatry is reprehensible.

Years after #medicinal herb was relegalized in #Connecticut, the state STILL won't go after irrational psychiatrists who #torture people over medical necessity. I'm not afraid of naming names online. The same doctors who torture people by forcing drugs upon them also say, "don't do drugs".

Why not make an example of them?

Here's a list of drug pushing bigots who forcibly drug their targets and say "don't do drugs":

Micheal Edward Balkunas
Christopher L. Yergen
Jeffrey T. Shelton
Enrique J. Tello
Susanne Wargo
John A. Nazarian
Richard J. Miller
Wayne Cotton

NOBODY deserves torture.

Every time the drug pushers refuse to taper the drugs, their targets are forced into hospitals over withdrawal symptoms, thus Post Traumatic Stress Disorder is exacerbated. Not everybody can afford a medicinal cannabis license. PTSD is usually misdiagnosed as "bipolar disorder, schizo affective disorder, and schizophrenia"; the go to misdiagnosis.

The burden of proof is on the doctors, and Probate Judges are unlikely to request evidence since judges are immune to lawsuits.

Medicinal cannabis still prevents paranoia because it's still relaxing, regardless of the placebo effect. The myth of "amotivational syndrome" is backwards, the medical necessity motivates its users. The myth of "impaired concentration" is also backwards.

The CVH abuse scandal was caught on tape. One nutcase is going to jail for what they ALL do

The only lunatics are the staff, not the prisoners. The crazy staff will label anybody else "mentally ill" to shift the blame away from themselves.

Medical necessity isn't "abuse", nobody went "insane" from a relaxing medicinal herb, and repeating a lie won't make it true.

Feb 5 going to Probate Court without representation. My lawyer is a fraud, appointed by the court, and he doesn't return my calls. The hearing is about moving back to my Bristol. Most people don't have to ask a judge for permission to move. This is what can happen to those who speak out against injustice.

Still no relief. I've been trapped in the wrong area since October 2017. No break from stress. My money gets wasted on rent for solitary confinement. Nobody told me what I'm falsely accused of. I was forced to sign the lease and nobody warned me I would never be allowed to relax. Due to a Probate Judge illegally appointing a Conservator of Person and Estate, a stranger forces me to suffer anxiety attacks and wastes my money on rent. My own "family" refuses to help, they say "look for a place and move" AFTER being told there's a Conservator of Person and Estate! Still not one moment of peace.

Already wrote songs that never manifested and this lack of fruition doesn't help to motivate me. I don't have a band and nobody even jams so I stopped writing. I doubt anybody will change my mind anytime soon.

Zen Bar has got to go. The bigots deserve much worse than losing customers. Mistreating musicians was bad for business already, and now these snobs assaulted a "disabled" person. I was already leaving BEFORE being PUSHED. That ought to be the last straw. Their rationale was "people were complaining" as if those people couldn't just LOOK THE OTHER WAY. I had paid the cover charge AND spent \$. I had nothing to do on New Years' Eve, so I resorted to Zen Bar. Now they're publicly called out. If I could choose where to reside, I would've done so. I'm FORCED to reside in the WRONG AREA because I'm a POLITICAL PRISONER. Every weekend, I reach out for relief without getting any reply because nobody comprehends that a Conservator of Person and Estate FORCES me to rot in an UNBEARABLE area, subjected to constant anxiety attacks. Sent this to _____ :

you sending me the healing kept me alive this (whole) time. Thanks. I dunno about attending events by myself it's too risky. With my defficiency of air, I should socialize more. It doesn't happen when I only have a fee days a time in Bristol. I'm surrounded by jerks and I've been without a break this whole time. This years' winter blues is worse than usual and I don't react well to Valentine's Day. I feel like I'm about to die from stress. I don't even have an outlet to vent when in a writers' block. It's unbearable that I can't even sublimate. Being trapped here will eventually drive me off the deep end. To my credit, I handled this well at first. I'd gather the actual reason almost nobody cares about me is because I'm poor. Authorities don't care that "discrimination is against the law", it's unenforced. Employers refuse to hire me. SSI is my only \$ and nobody's impressed. I literally have very few friends in real life. When I can smoke herb again, I'd rather share it. It's not the same smoking by myself. This setting also is bogus. I've got worse than the usual fear of aging, I wasn't allowed to enjoy my youth, I was locked in cages for most of my life. I'm trying to get some relief while I still can and it hasn't worked yet. Not too late, just close to it. If I could enjoy anything even once more, that'd be better than nothing.

6:09 p.m.

I don't react well to Valentine's Day. Not cool to "rub it in" that not everybody has anything to celebrate. If I could skip it and go directly to St. Patrick's Day, I probably would.

In real life, #savant syndrome is nothing like how it's portrayed on TV or in movies. I'm fed up with being an easy target Appearing in public alone is terrifying. I never harmed anybody and I'm fed up being labeled a "retard" and a "creep" and told "we don't like your kind around here".

I'm still trapped in the wrong area. This problem would've been solved if enough people had a conscience. I needed a break from the stress so I could recover. Instead, I was harassed in my house because nobody had the decency to bring me to an event so I wouldn't either remain isolated or be easily targeted for attending an event alone. That's my \$ paying rent for this shithole and it's not easy to plan for better housing when still in shock from trauma. My mood is slightly improving due to the weather, but I'm still infuriated by the lack of compassion. I've been betrayed.

I never claimed to be the only person with problems. This problem can be solved very easily, yet nobody else has compassion. Why not just bring me to a better setting than this? WtF???? I'm still waiting to hear after voicing my concerns about violations by a 3rd shifter, Baja, who causes friction.

Baja sleeps on the job, then gives me a hard time for knocking on the door to the office because she had to wake up. Her inappropriate remarks about my family were the last straw. It's alarming enough that she gets paid to sleep. Baja doesn't know me or my family. When my "mother" denied me transportation to Bristol, Baja said, "I don't blame her", so I'll have to report that.

called out Dr. Jeffrey Shelton on Google reviews and elsewhere :

Medicinal cannabis saved my life. When Dr. Shelton prescribed pharmaceuticals that caused depression, I smoked herb to improve my mood. When he prescribed pharmaceuticals that impaired concentration, I smoked herb to concentrate.

Medical necessity isn't "abuse". The myth of "ammotivational syndrome" is backwards. The medical necessity motivates its users. To this day, a prehistoric medicinal herb still prevents paranoia because it's still relaxing. Dr Shelton will misdiagnose anybody to shift the blame away from himself, and he prefers to prey upon easy targets. His targets are mellow, docile, and passive. Kindness is mistaken for weakness. Dr. Shelton is a bully.

Every time prescribers refused to taper the pharmaceuticals, I was traumatized by involuntary admission to hospitals because of withdrawal symptoms. I finally tapered them myself, and I'm rising above the brutality inflicted upon me. I have a medicinal cannabis license now.

Dr. Shelton is guilty of insurance fraud and worse. The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something". The Department of Public Health has been told about Dr. Shelton and he will hopefully be brought to justice very soon.

Withdrawing from tobacco again. There's no "mind over matter", tobacco is addictive. The withdrawal symptoms worsen until they taper or until use is resumed. When they taper, that doesn't guarantee the addiction won't resurface. "Willpower" makes no difference. Tobacco addicts don't have a choice.

I'm still in a writer's block and denied better housing. I had NEVER agreed to reside in the WRONG AREA. That's MY money paying rent for an UNBEARABLY improper setting, and I still haven't been told what I'm falsely accused of. If I could move out, I would've. Without creativity, I'm devoid of any outlet. I needed a break from stress this whole time I was told to "look for a place and move" as if it's that simple. I was traumatized in this house and I'm forcibly isolated and constantly antagonized.

Unlicensed psychologist and bully "Dr" Phil has no idea the first medical necessity will never "impair concentration", he would recant his lies if he had difficulty concentrating. The first medical necessity will never "cause paranoia", NOBODY gets "paranoid" from a relaxing medicinal herb that'll always prevent paranoia because it'll always be relaxing. The myth of "ammotivational syndrome" is backwards. The first medical necessity motivates its users. The safest and most effective medical necessity will never be "harmful", exploting people by broadcasting their problems on TV is harmful. Unlicensed psychologist and bully "Dr" Phil ruins lives. After withdrawing all dat, scavenged tobacco. The nicotine gum doesn't reduce the withdrawal symptoms.

Headache and tobacco withdrawal interfered, so no relief; except that I wrote a bit. Almost felt a bit better until the tobacco withdrawal got unbearable, then I got a headache. Humans are social animals. The conditions humanity evolved under were nothing like the #dystopia and I was already harmed by forced isolation before the quarantines. Removed Jokers from deck.

Stacked cards until I got either an Ace or 10 in the stack until I had 3 stacks. There were 2 Aces. If it were zero Aces, that'd mean no curse. 2 out of 3 Aces meant a 66.6 percent chance of a curse.

The pro-vaxx #media denigrates everybody with #autism. We're portrayed as "monsters who shoot children". The #pharmaceutical industry OWNS the media. The pro-vaxxers are taught to hate and fear everybody with autism. They obviously don't want to be like us, so they deny that #vaccines are the main cause of autism. They're terrified of us for the same reason they're afraid of a temporary ailment that causes a fever and a rash for less than 2 weeks and then never resurfaces. #Measles is rarely fatal, rarely severe, and survivors never catch the same #virus again, they have lifelong #immunity because they've already survived measles, and they're less susceptible to #diseases such as Parkinson's #disease and #cancer because they've been through the measles, thus they're protected; hence I don't give any credence to the myth that a temporary ailment could possibly be worse than being hated and feared by the pro-vaxx populace. Deaths from viruses already declined by 90 percent BEFORE vaccines. #Sanitation #hygiene, and #nutrition saved many lives.

I have to avoid the stress and tobacco withdrawal, somehow, so I slept all day. I woke up withdrawing. The gum doesn't reduce withdrawal symptoms. Today, I called the Post Office to report intercepted mail. I also called the Healing Corner to pre-order an 8th.

Posted this online because I want it known what's been inflicted upon me :

I don't remember enjoying anything. I only remember trauma. I was already forcibly isolated before anybody even mentioned coronavirus. I just needed a ride out of the cage. I recieved nothing but snotty replies like "rent is standard" and "look for a place and move" and "talk to your case manager". My money pays rent for solitary confinement because a lawyer has my money. The Probate Court appointed a stranger to ruin my life at the behest of white supremacists who think jazz musicians and Mexicans are "out to get" them. Community Mental Health Affiliates, a hate group, sent bigots to lie under oath. The judge encouraged perjury. Medicinal herb saved my life until I was yet again traumatized in this house. CMHA discharged me to Continuum of Care in 2015. Since October of 2017, I've been trapped in the wrong area. I was forced to share a house with a bully who threw out my belongings, stalked me by waiting for me at a park and even pulled down to his pants to indecently expose himself. Medicinal herb gets less and less effective while I rot in the cage. There's no enjoying anything here.

11:50 a.m.

I finally have my last \$30 until April, so I don't know what I'll do next week

The other day, I did the cartomancy again and all 3 aces now. I suspect it's an inherited curse on Mayflower descendantds I unfortunatly am one; hence my surname, Tucker is apparently English . I don't know much about that side of the family's history and what I do know is negative. At least I verified that I wasn't wrong. The medical conditions aside, there's also at least one curse. It causes undeserved negative reputation, bad luck, constant headaches, loneliness, abject poverty regardless of either hard work and / or talent, et cetera. Yeah, sounds like a curse or maybe more than one. It might be more than the Mayflower descendant's curse. Might also be karmic debt I tried hypnotherapy to remember past lives and I couldn't. There's blockages when I try to meditate. Every time I tried, it was prevented.

When #lawmakers #capitalize upon mass #hysteria to #mandate a coronavirus #vaccine, I'll remember they lied and many quickly recovered from said #virus without any vaccine. sent this to Senator Chris Murphy :

why not address the autism epidemic? I'm autistic because of vaccines and I wouldn't wish this upon anyone. I'm expected to fend for myself because I'm on the highest functioning end of the autism spectrum. I'm fed up with being labeled a "retard" and a "creep" and told "we don't like your kind around here". Pro-vaxxers either think autism is "no big deal" because they watch TV and movies OR they think autism suddenly pertains to rampages because a few bigots said so on the

news. Deaths from viruses already declined by 90 percent BEFORE vaccines. Sanitation, hygiene, and nutrition saved lives, unlike vaccines. One study was retracted by force and the pro-vaxxers think that proves that vaccines suddenly don't cause autism. Even after mercury was removed from many vaccines, they still contain other poisons that cause autism. The pro-vaxxers don't comprehend the difference between ingestion and injection, they say, "there's more mercury in fish oil than vaccines". They say they'd "rather be autistic than dead" like they've never heard of any other possibilities besides autism and death. Infant mortality increases along with vaccination, hence the highest infant mortality rate is that of the U.S.A.! Vaccines kill many babies. They can cause encephalitis, seizures, cancer, et cetera. Vaccines are manufactured by pharmaceutical companies. They're incorrectly called "free" in some countries despite that they cost lives. The vaccinated vast majority keeps getting sicker.

Medicinal cannabis remains the ONLY way I concentrate. Nobody gets "paranoid" from a relaxing medicinal herb that'll ALWAYS prevent "paranoia" because it'll ALWAYS be relaxing. The first medical necessity also treats traumatic brain injuries. The bully "Dr: Phil told someone with a TBI the myth that the first medical necessity somehow "causes brain damage". He coerces recovering alcoholics and drug addicts to relapse, either by giving them alcohol and Xanax or by telling them they're "still using" when they're not; they can't remain clean and sober without medicinal cannabis as a crutch to take the edge off of recovery. At least Jerry Springer ADMITS his show is garbage! "Dr" Phil exploits people by broadcasting their problems on television. It's all about ratings, money, and attention. Shock value increases ratings, hence the phony "Dr" Phil ruins lives to add more drama to his show.

Domestic violence has skyrocketed because of stay-at-home orders. The pro-vaxxers are to blame. Deaths from viruses already declined by 90 percent before #vaccines. The pro-vaxxers either think #autism is "no big deal" because they watch TV and movies or they hate and fear all #actuallyautistic people because the news #media portrays us as mass shooters. Many lives were saved by sanitation, hygiene, and nutrition; not vaccines. I have autism IN REAL LIFE and it's not like the press claims.

Unlicensed psychologist and bigot "Dr" Phil is commenting on the murder of a black man by police, and he's pretending to oppose racism. Yeah, right! #drphil is a white supremacist. The phony "drug war" is fueled by classism and racism. Medicinal cannabis saves lives. "Dr" Phil thinks jazz musicians and Mexicans are "out to get" him, so he labels them "paranoid" because of his neo-Nazi views. The first medical necessity prevents paranoia because it's relaxing. The herb will never "impair concentration" the opposite is true. "Dr" Phil would recant his lies if he had difficulty concentrating. #stopdrphil

After surviving decades of forced drugging and other torture, I remain a political prisoner because of #ableism

The press doesn't report the abuse inflicted upon #actuallyautistic people.

I'm still denied better housing. No recovery allowed, no "rebuilding lives", the opposite is true; Continuum of Care is RUINING LIVES. I wasn't warned that I'd never be allowed out. Continuum of Care doesn't allow anyone to graduate out and have a better life. The unqualified staff vowed revenge because I took a stand against their negligence. They thought they could stay in the office and get an easy paycheck. They had to remove Mike Inigo after he had been harassing me and throwing out my belongings. Just to rub it in, Continuum of Care denied me a reimbursement. Leann Farley, the manager of this house, would be behind bars if there were any "law enforcement", those kinds of laws are unenforced; and Probate Court denies me representation. There was never any grounds for a Conservator of Person and Estate.

The unqualified staff always get away with it regardless. Norman still gets his easy paycheck even after talking about guns. Norman stayed in the office when Mike Inigo bullied me. I'm TERRIFIED of the unqualified "staff" who bully me and get away with it every time.

The incident from last year should've ended Norman's employment. Leann Farley encourages violations and that's why she's the manager

Sinn Fein are left wing Republicans."

----___ : "Democratic socialism could be the way to transition towards anarchy."

Kedrick: "There apparently has to be a transition to anarchy, not just suddenly going directly from *this* to anarchy."

--__--__ : "Of course."

Kedrick the Head Trip: "What I'm about, anarcho-primitivism, would require a transition so gradual that it'd take more than decades; more like *centuries* before the Earth even *begins* to heal."

--___ : "I dunno about the primitivism, but I am an anarchist"

Kedrick: "Civilization is inherently patriarchic."

I went into the dispensary, then went back to ----___ 's car.

Kedrick: "Anarcho-primitivism pertains to anarcha-feminism. These topics are connected."

--- : "Everything's connected."

The lyrics to Holistic Altruistic Mystic:

I'm a #holistic #altruistic #mystic with #cryptic #intrinsic #rhythmic
oneiric psychic type #psychedelic dreams both vivid and even lucid at times
in an unpredictable, sporadic manner
I'm some sort of #nomadic #scavenger
an #oneiromancer and
a #vagabond, a traveler

who arrives with #ganja and lavender
as the knight points sword towards the moon
recognition when efforts come to fruition soon
with #intuition,
I'm a #sorcerer, a #forager with extrasensory perception
smoking the dispensary's most effective medicine
with my #precognition, I dream #premonition
I'm sensing an impending schism inevitably affecting evidentialism
Divine #enlightenment is my entitlement
when I write about my syncretism
I'm a #philosopher by definition because I love #wisdom
I know when to call for #sedition
via #prediction
to cause a transition
back to the #feral humanity and with sincerity
with relentless temerity
I express #solidarity
rather than digress from charity
I have emphasis and clarity

I'm an innovator, not an instigator
I'm a #nature #liberator against any discriminator
and I've been more than just a demonstrator
I pioneered being medicinally high for years
I'm so polarizing I'm #divine and revered while
also despised and feared
for being a broke rockstar, just wise and weird
I descend from #Irish volunteers
Not to digress from the point,
I'll smoke a pregnant joint
I believe in #AnarchoPrimitivism
I support brave #cavewomen
I'll dispell any doubt left
that Property is Theft
I'm about to get improper and incorrect
I recollect an era when I had already rejected propaganda
I'm a head of my time
I'm too #eccentric to define
